June 22, 2017

Dear 12th Grade Parent and/or Guardian:

The State of Missouri has changed immunization requirement laws that started with the 2016-2017 school year. The new law states that all students must receive two doses of the Meningococcal (MCV) vaccine before enrolling in 12th grade. If the first dose was administered to a student who was 16 years of age or older, only one dose will be required. **Please note that the most recent vaccine must be given at age 16 years or older.** This is a Missouri state law and is strictly enforced. Please take care of any obligations as early as possible, to avoid possible delays or possible exclusion from school.

Feel free to scan and email Jill.Scott@nkcschools.org your student's proof of immunization when you receive it. You can also mail a copy or drop it off at the school.

Thank you for your assistance in this matter. Your primary care physician or the local health department can also help answer any questions you may regarding these immunizations.

I am retiring after the summer session is over on June 22. Jill Scott will be my replacement.

Sincerely,

Tina Twarek

Vision Statement

Staley High School is a community where individual and collective gifts are celebrated to foster personal and academic excellence.

Mission Statement (Our Purpose)

We commit ourselves to create and sustain an inclusive environment of learning that challenges and inspires each of us to SOAR through: **S**ervice, **O**wnership, **A**chievement, and **R**espect.
