We Are Staley

In April of 2005, voters in a bond election approved the building of a new high school in North Kansas City Schools. The result is a 314,000 square-foot, 65-acre, environmentally friendly and energy-saving building that opened in August 2008.

Staley High School is registered under the LEED Green Building Rating System. The Leadership in Energy and Environmental Design (LEED) Green Building Rating System™ promotes a whole-building approach to sustainability by recognizing performance in five key areas of human and environmental health: sustainable site development, water savings, energy efficiency, materials selection and indoor environmental quality.

In the fall of 2005, a committee composed of future students, staff, parents and community members came together to determine the school colors and mascot. After receiving input from all stakeholders, the committee recommended Green, Black and Silver as the official school colors, and the Falcon as the official mascot. In the days of chivalry, the Falcon held the meaning of “one who does not rest until the objective is achieved.” Green stood for Hope, Joy and Loyalty. Silver represented Peace.

Staley’s core values center around Service, Ownership, Achievement and Respect, and students thrive in an environment of authentic learning that encourages the asking of questions, collaborating, seeking solutions and fulfilling daily commitments. The school community highly values individual and collective gifts that foster personal and academic excellence.

Everything you could want in a school can be found at Staley. From professionally recognized administrators, teachers and staff, to high performing students and championship sports teams, there is never a shortage of good news from Staley.

“Together...Traditions...Staley Strong”
