THE POWER
OF IMAGINATION

Classes to Enhance Your Life and Career

Spring has arrived!

After a particularly long winter, the season of renewal is upon us. I am confident by browsing our Community Education classes you are planting seeds of learning that will bloom to offer you growth and opportunity! That is what we aspire to do every day in North Kansas City Schools – nurture a culture of curiosity that feeds the imagination of our students, cultivating them to achieve their potential as lifelong learners.

From our youngest students to our most seasoned, the district works diligently to develop a sense of possibility for all by offering a variety of learning opportunities. Whether you are interested in science, language, music or art, there really is something to feed every interest. We want learners to dream and imagine, and then find courses that fulfill to passion or inspire them to keep seeking the right path. District programs such as Automotive Technology, the Construction Career Academy, Northland Center for Advanced Professional Studies, N2 Sports Broadcasting, International Baccalaureate and Early College Academy are all created to spark the spirit of possibility and push students to reach their potential.

“The Power of Imagination” is a wonderful theme for a class schedule. As Albert Einstein is quoted as saying, “Imagination is everything. It is the preview of life’s coming attractions.” As you consider the offerings available to you, dream about where each course could take you – the places you could go, the people you could meet and the endless possibilities offered by continued learning. We are excited for you to register and begin your journey!

There are great things happening in our schools every single day. Please take a moment to learn about the wonderful ways you can get (and stay) involved with the district. Sign up for classes, volunteer in our schools, attend our events. Be a champion for our students!

Thank you for your continued support of NKC Schools!

Family Music for Toddlers: Twist and Turn (Age 15 mos-3 1/2 yrs)
Capture the magic of nursery rhymes. The delightful language, and the movement response it evokes, speaks to the most active children as they explore walking, jumping, twisting, and turning… “Oliver Twist, you can’t do this!” The tales told by the nursery rhymes and song material are appealing to toddlers enjoying the movement and the instrumental play. Each family will receive a CD, pair of rhythm sticks, and parent guide.

**Basic DSLR**

Learn on Location: Basic DSLR taught on site, weather permitting. To give you close to real life situations when photographing, most of the time will be spent on location in different areas of the city as well as the instructor’s studio located in the stockyards district, to understand how to use window light to your advantage. Class in the school meets at 7:00, however, for light purposes, location classes will begin at 6 although that time is flexible. Some locations may include Liberty Memorial, Kaufman Performing Arts Center, Graffiti Alley, City Market, JC Nichols Fountain. Other suggestions are welcome.

Learn to Make Fermented Veggies, Kombucha & Kefir

Before the advent of modern day canning most of our American foremothers understood the process of lacto-fermentation. They had crocks of real sauerkraut, lacto-fermented cucumber pickles and other treasures such as beets, onions or garlic waiting out the winter in the root cellar. Those countries with histories deeper than our own traditionally fermented vegetables with simply salt, water and spices – knowing that the lactic acid produced would prevent the putrefication of these precious nutritional storehouses, keeping them fed through winter. In this fermentation workshop, you will get to taste and take home your own kombucha scoby.
