

Immediately upon facing building closures that required services and learning to be facilitated differently, NKC Schools implemented a comprehensive plan for families to access food. Attempting to prepare for any possible scenario the pandemic might present, multiple phases were outlined to continue providing this much-needed resource. As school districts throughout our state and nation report incidents of food distribution workers contracting COVID-19, NKC Schools collaborated with the Clay County Health Department to determine the right time to shift to Phase 2 of our food distribution plan. The decision has been made that on **Monday, April 13**, district buses will no longer be used to deliver meals to stops throughout our community. Food distribution will now be increased from four to 12 school sites located throughout our attendance area. Local health officials advise this change in our service model will help slow the spread of the coronavirus. NKC Schools remains steadfast in our resolve to provide food to those in need.

The following sites are designated as “grab-n-go” food pick up locations every Monday through Friday between 10 a.m.–1 p.m. This is an extension of the previous timeframe. No changes will be made to food distribution for families with unique needs and extenuating circumstances. Should you have need for such an accommodation, please contact your school’s School Community Resource Specialist. Limited delivery efforts will continue in high need areas, as well.

NKCHS
Northgate
Crestview

Oak Park
Antioch
Linden West

Staley
New Mark
Rising Hill

Winnetonka
Eastgate
Maplewood

Again, this change will occur Monday, April 13. Feel free to utilize the Questions-Comments-Kudos button on the district webpage, or click [here](#) if you have further questions.
